

Spending spree

Time for a **spending spree**. Wow that's a good **price**, or is it?

If you want to buy something, you're going to need **money**.

There are lots of ways to **spend** money. But really, they are all the same.

Lets say I had one hundred pounds. I could put that money in a bank. Then my bank account would have one hundred pounds in it.

I can ask the bank to give me some of my money in **cash**. 10 pounds please. That's a Ten pound note.

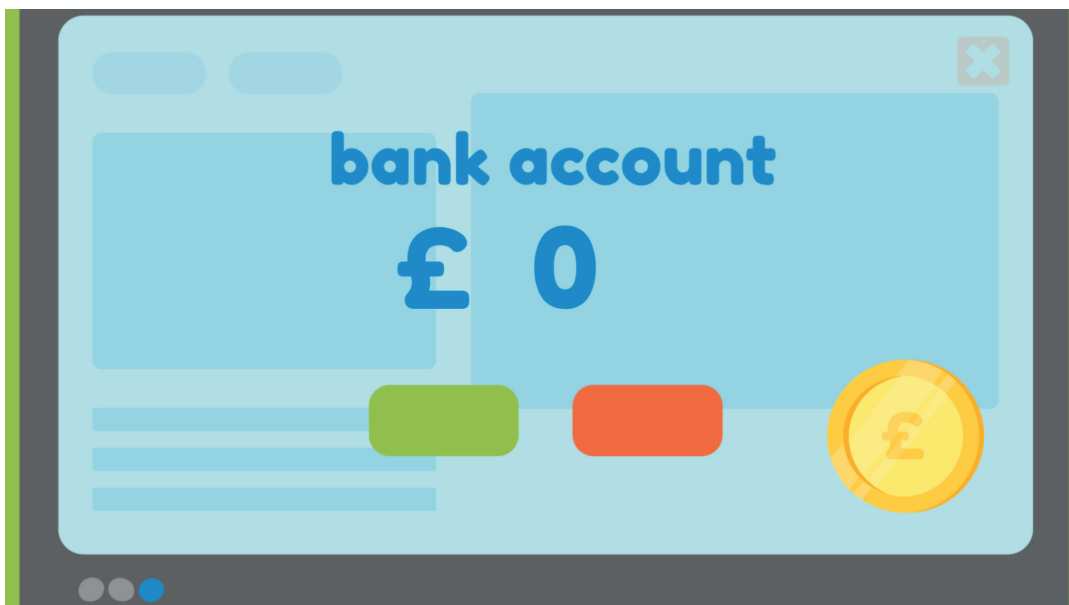

Pounds are the **currency** we use in the UK

I could also just use a card to spend money. Or even use **contactless** payment on my phone.

Even small **amounts** add up and can be really **expensive**. Such as in games.

But it's all real money. And when you spend it, it's gone forever!
