Investigation: How long will it take an ice cube to melt?

You will need:

- A timer
- A ruler
- A plate
- An ice cube

1. Place your ice cube on a plate.
2. Set the timer for 1 minute.
3. Use a ruler to measure the height of the ice cube.
4. Record your measurement in a table.
5. Repeat until the ice cube has melted.
6. Draw a bar chart when you have finished.
