

1. Watch the following class clip, pause it as an when you need to complete the different questions and activities below: [bbc.co.uk/teach/class-clips-video/geography-ks3-erosion/zjdjjhv](https://www.bbc.co.uk/teach/class-clips-video/geography-ks3-erosion/zjdjjhv)

2. What is erosion? .....

.....

3. Complete this table showing the different processes of erosion:

Process of erosion	Diagram	Description
Hydraulic action		
Abrasion		
Attrition		
Solution		

4. In the table below list some of the features created by different types of erosion (you could include diagrams):

Erosion	Features of erosion
River	
Glacial	
Sea/coastal	

5. What are some of the impacts of erosion on human lives and activity? .....

.....

.....

6. Carry out some independent research into an area of coastline which is suffering from erosion. What are the impacts and what is being done to slow down the erosion here? You could use one of the examples from the video clip (Hemsby or Happisburgh both in Norfolk).
