

Draw Accurately Lesson Guidance

Learning Outcomes and Glossary

Learning Objective

Your child will learn how to draw and measure accurately.

Glossary

- **Rounding** – This means replacing a number with an approximated value. Numbers are often rounded to the nearest 10, 100 or 1,000. Decimal numbers may also be rounded to the nearest whole number.

Learning

Video – Draw Accurately

- The aim of this video tutorial is to show children how to measure and draw accurately.
- Throughout the video, there are a number of questions for children to answer. You will need to pause the video at these points to allow children time to answer.
- Children could practise more examples by drawing shapes which have exact measurements.

Practise

Worksheet

- There are three questions to complete which involve measuring and drawing accurately. The first two questions allow children to practise the skill, while the third question extends them as they have to problem solve and explain their answer.

Interactive Game

- Answer the five questions in the interactive game and practise the skills you have learned to measure accurately.
