Think together

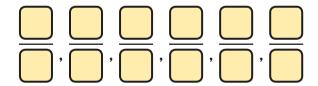

Amelia Mo

 $\frac{4}{5}$ $\bigcirc \frac{II}{I5}$ has read more.

2 Put these cards in order from smallest to largest.

First I will sort them into fractions which are greater than and less than a half.

a) Max is trying to find all the possible missing numbers.

$$\frac{5}{q} > \frac{18}{18}$$

$$\frac{5}{q} > \frac{12}{18}$$

Max says, 'I think one of these has more solutions than the other.' Do you agree? Explain your answer.

b) Explain how to find more than one solution to these problems.

$$\frac{3}{5} < \frac{2}{5} < \frac{4}{5}$$

$$1 > \frac{1}{4}$$
