

## **The Sound Of Us**

Drummer boy  
With your 1 - 2 - 3  
Won't you lay me down  
A simple beat

Bass line put your arms around me  
Keep that good time  
Keep it strong keep it steady

Lead guitar  
I wait for you impatiently  
Let those riffs run free  
Playful pleaser  
Make believer with those pretty little keys

We build it up  
We break it down  
When I'm not sure  
You bring me round  
Rising up through the noise I hear a new sound  
I hear it loud and clear  
This is the sound of us

Take it back  
I was on my own  
Acapella  
Feeling lost, so low  
Now there's no doubt  
I'm nothing without  
These dream team harmonies

We build it up  
We break it down  
When I'm not sure  
You bring me round  
Rising up through the noise I hear a new sound  
I hear it loud and clear  
This is the sound of us
