

Number

Bonds

To 4

Talk

True or False:

'There are 4 number bond pairs that make 4'.

Talk about them with your grown-up.

Explore

The Number Bond Scavenger Hunt.

Can you find 4 things in your home using a mixture of hard objects and soft objects? (this could be spoons, pens, tissues, slippers)

Try changing how many hard and soft objects you have to still end up with 4.

Now, can you find 4 things in your home using a mixture of plain objects and patterned objects?

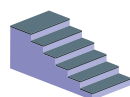

Try changing how many plain and patterned objects you have to still end up with 4.

Draw

Find a pen or pencil.

Colour in the squares to show the different number bond pairs that make 4.

How would you show $0 + 4$?

Can you show this on some paper?
