

Changing states

1. With an adult or a friend, fill **two** containers with water to the same level.
2. Place one in a **sunny spot** and the other in a **shaded area**.
3. Using a **ruler**, measure how much water has **evaporated** throughout the day and **record** it in the **table below**. Which spot lost the most water to **evaporation**?

| Time | Evaporated (mm) | Difference |
|------|-----------------|------------|
| | | |
| | | |
| | | |

| Time | Evaporated (mm) | Difference |
