

# Make a sock puppet

Have you ever wondered what you could make with all those odd socks? They are perfect for making a puppet. Have a go at making your own sock puppet and put on a show for your family or friends.

## You will need:

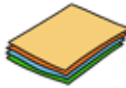

- a clean, odd sock

- a felt tip pen

- some small pieces of paper or card

- some short lengths of wool or string

- a glue stick

## Method:

1

Put the sock on your hand and pull it up your arm. If you are right-handed, put it on your left hand. If you are left-handed, put it on your right hand.

2

Make a curved shape with your hand so that you can decide where to put your puppet's eyes.

3

Draw two circles on top of the sock with a felt tip pen to make the eyes.

4

Take the sock off your hand and lay it flat.

5

Decorate your puppet in any way you want, using the glue to stick on any pieces of paper, card or lengths of wool or string you have.

6

You are now ready to perform a show with your sock puppet. Remember to make a silly voice for your puppet when they speak.
