

# Remarkable recycling

Looks like you have too many toys there. Maybe its time to do some **recycling**.

If you no longer use it, you could give that toy car to someone else.

Maybe a younger sister?

Or you could donate it to a **charity shop**. So someone else can enjoy it.

What about that old bucket? **Repurpose** it as a pencil holder. Brilliant! That old football would make a funky **unique** plant pot.

And a T-Rex would make a great... hedge trimmer. Ahh, maybe not!

But a lot of things made from **plastic** can be re-cycled so that they can be made into something new.

That's better! A much more **sustainable** number of toys.
