

Marcia the manatee's underwater dance

Come on now and meet the creatures
here in the sea.
We move in time to the rhythm.
Dance, dance along with me.

The crabs go from left to right,
side to side.
Snap your claws, step to the music.
Snap, snap, feel the tide.

The turtle under the waves
goes up and then goes down.
Flap your fins, bounce to the beat.
Everybody's moving to the underwater sound.

Now you've met
some creatures of the sea.
Raise your arms like an octopus and wave,
wave along with me.

The crabs go from left to right,
side to side.
Snap your claws, step to the music.
Snap, snap, feel the tide.

The turtle under the waves
goes up and then goes down.
Flap your fins, bounce to the beat.
Everybody's moving to the underwater sound.
