# Living, dead and non-living

Draw the missing thing in each of the empty boxes, it can be anything you want as long its either **living, dead or non-living**.

| Living	Dead	Non-living

Living	Dead	Non-living

Remember...

Trees and animals are **living things**.

Dry leaves on the ground are **dead** and bones were also once part of a living animal that now is dead.

Non-living things are materials that have never been alive.
