

Difficult decisions

Looks like we've reached a **difficult decision**.

We need to **decide** which way to go, and fast, this is Big Foot Territory!

There are **multiple choices** but in this case either will do!

Sometimes we make **good choices** and other times we make **terrible ones!**

But the important thing is we learn from our **mistakes**.

It's always good to **compare** our choices. Back into the forest or through the swamp.

Phew, good choice.

We've been here before so we can **review our choices from last time.**

And make better choices this time!
