

Character profile example: Vlad the vampire

1. Appearance

Vlad is a 110 year old vampire but looks like a 10 year old boy (vampires age much differently to humans). He has pale white skin, red eyes which shine in the darkness and his sharp fangs stick out under his top lip. Vlad has dark purple hair that is slicked back smartly.

2. Personality

Vlad looks like a terrifying monster, but he is actually a kind, caring person. He lets all creatures live in his house such as rats, mice, bats and all types of insects. He wants to give them a place they feel safe.

3. Actions

Vlad loves watching the local people live their lives in the sunshine, playing, talking and laughing without anyone running away screaming. But one day a small boy, who is running away from a bully from school, runs into the house. He is the first person ever to enter. Vlad sets on a mission to become the boy's friend.

4. Change

The boy bumps into Vlad and at first is petrified, but then he finds all the beds he has made for his animal friends, he finds the toys he has created and he sees the sadness in Vlad's eyes. By the end, Vlad and the boy are friends and Vlad is happy and no longer lonely.
