

# Minibeast hunt

It's time to get outside and put your minibeast-finding skills to the test.

With a grown-up, take a look around your local green area, park or school.

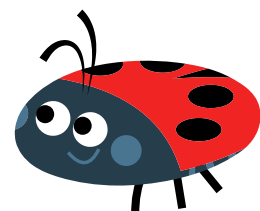

Carefully turn over logs or stones to see if there are any creatures underneath.

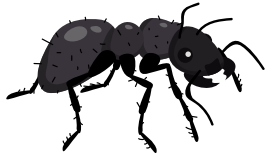

Remember to put things back how you found them and try not to disturb any of the animals and plants.

See how many of the creatures you can see and give yourself a point for each one.

You could challenge your friends and family to see who can get the highest score.

Happy hunting!
