

My Diverse Identity

There are lots of things about people that make us all diverse.

Grab a piece of paper and write about the **different characteristics** that make up your **diverse identity**.

Once you have done this, write about the **different characteristics** that make up one of your **friends** or **family members identity**.

Have a think about the differences and similarities that you have.

You could even draw a picture to help you compare!

To help you get started, you could include:

- *Your race and ethnicity.*
- *Where you are from.*
- *The traditions and celebrations you like to take part in.*
- *Your religion.*
- *Your gender.*
- *Your beliefs and values.*
- *What your family looks like.*
