

Good times Transformations

AMELIA So get used to our new voice activated layout software. It responds to the name SAL. I'll be back later to see your article.

GARETH Ok, thanks. SAL, open file 'Cool Gareth 71'.

SAL File open.

GARETH Nice. Flip it, slap it front and centre and let's see that selfie in all its glory.

SAL Sorry Gareth, I can't do that.

GARETH SAL! Flip it, spin it and stick it in the middle.

SAL I'm sorry, Gareth.

AMELIA You need to use expressions it understands. Try 'reflect', and a grid would be useful.

GARETH Oh ok, right. Overlay grid. Reflect 'Cool Gareth 71'.

SAL Mirror line needed.

GARETH Line x equals 6.

 Save. Hmm, what's this?

 Enhance selection.

SAL I'm assuming that you mean 'enlarge'.

GARETH Yes.

SAL Then say 'enlarge'.

GARETH Ok. Enlarge selection four times.

SAL Do you mean length scale factor 4 or area scale factor 4?

GARETH Length scale factor 4, obviously.

Bitesize

SAL Obvious if stated correctly. Centre of enlargement needed.

GARETH Coordinates 9 comma 7.

 I knew the blackout wasn't because I turned the bubbles up full!

 SAL, translate enlargement by the vector -3, -2. Save and close enlargement. Now, let's put you in pride of place.

 Rotate 90° clockwise.

SAL Anti-clockwise only. I have my reasons.

GARETH Ok then, rotate 270° anti-clockwise.

SAL Centre of rotat...

GARETH 7 comma 4!

 Save. Full screen.

 Ah, good times.
