

# The life cycle of a plant

1. Carefully cut out the cards.
2. Arrange the cards into the correct order to show each of the **five stages** of the **life cycle** of a plant.

**Buds open into flowers and fruit**

**The roots grow downwards, and the shoot grows upwards**

**The plant grows mature**

**The plant makes seeds to grow a new plant**

**A seed or bulb germinates**
