Investigation: When will it move?

You will need:

- A plank of wood
- A toy car
- Some sandpaper
- A piece of fabric or carpet
- A ruler

- 1.Put the plank of wood flat on the ground.
- 2.Lift the plank until the toy car starts to move.
- 3.Use a ruler to measure the height.
- 4.Record your measurement in a table.
- 5.Repeat using the other materials.
- 6.Draw a bar chart when you have finished.
