

# Whatever the weather

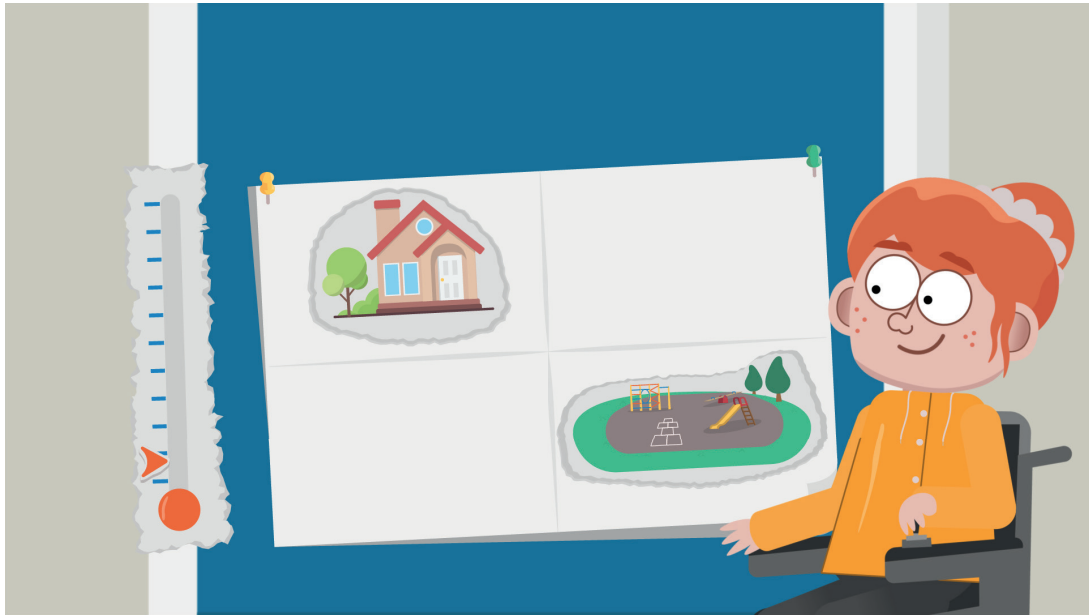

The **climate** here this time of year, is usually **warm** with a few **showers**.

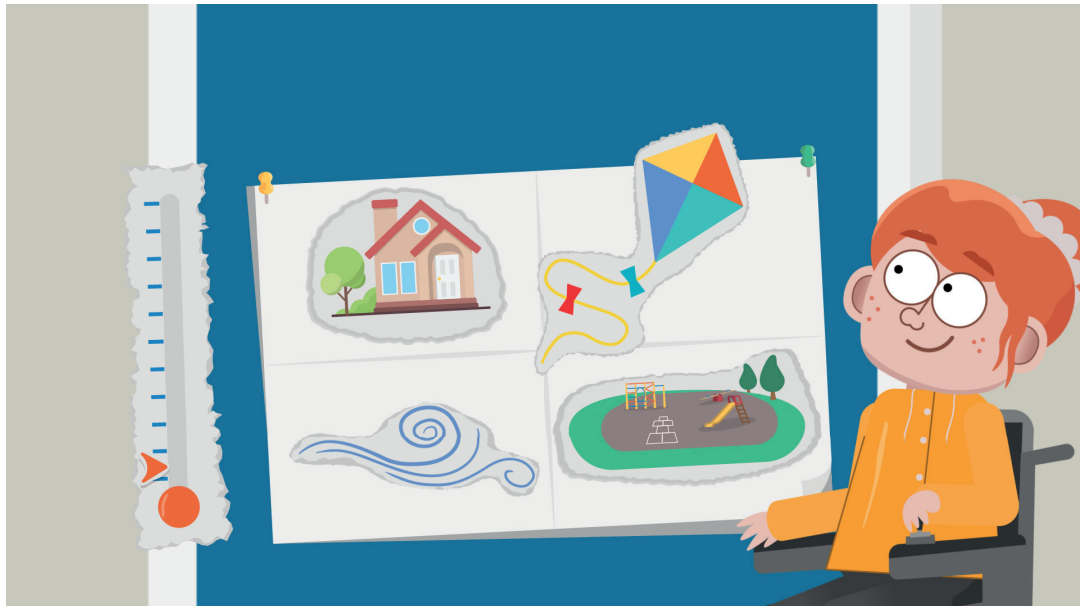

But the **changeable weather** today, is making hard to choose what to wear to the park.

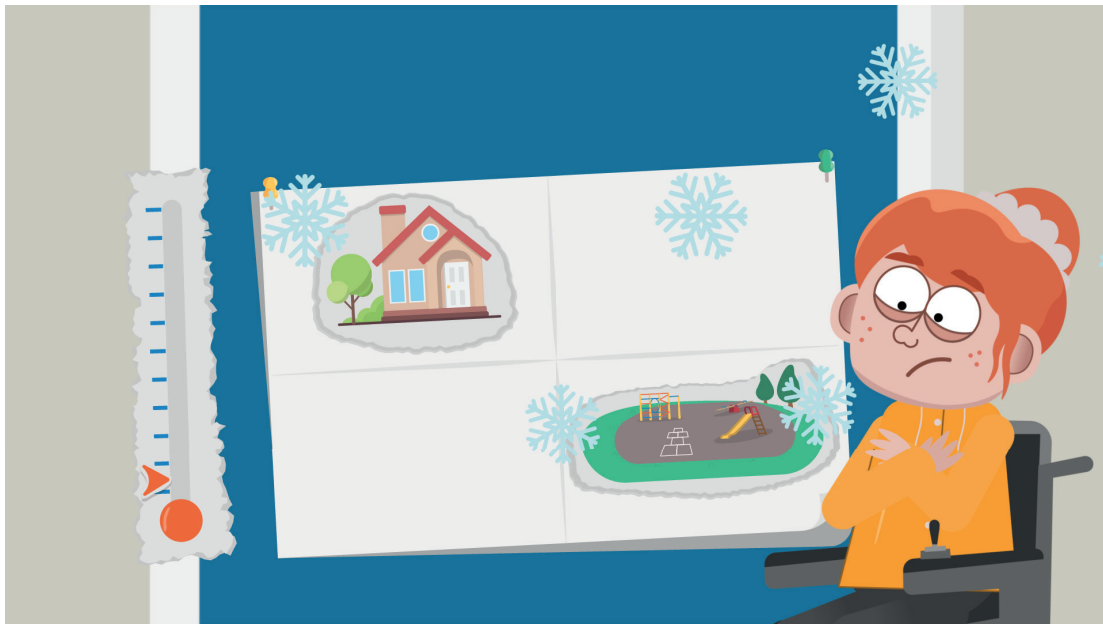

Time to check the **forecast**. So far today the **thermometer** says we've had low **temperatures**.

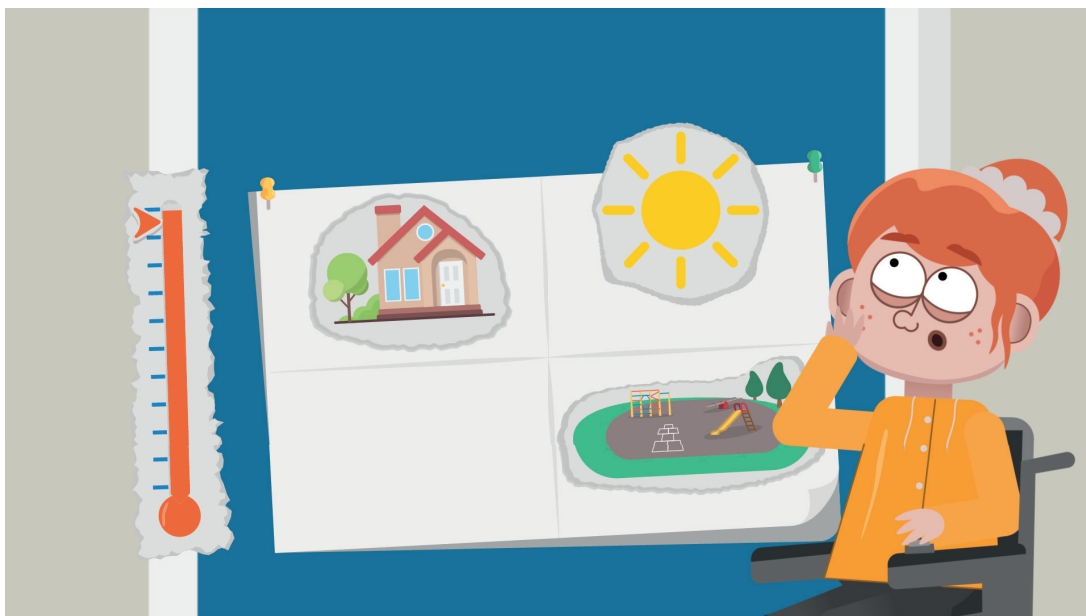

It's been a **cold** and **blustery** morning. Take out your kites and hold on tight.

Be sure to wrap up, that **chilling wind** will blow an **icy breeze**.

Around lunchtime, things are getting **hotter**. **Scorching sun** and **clear** blue sky, leading to **high** temperatures.

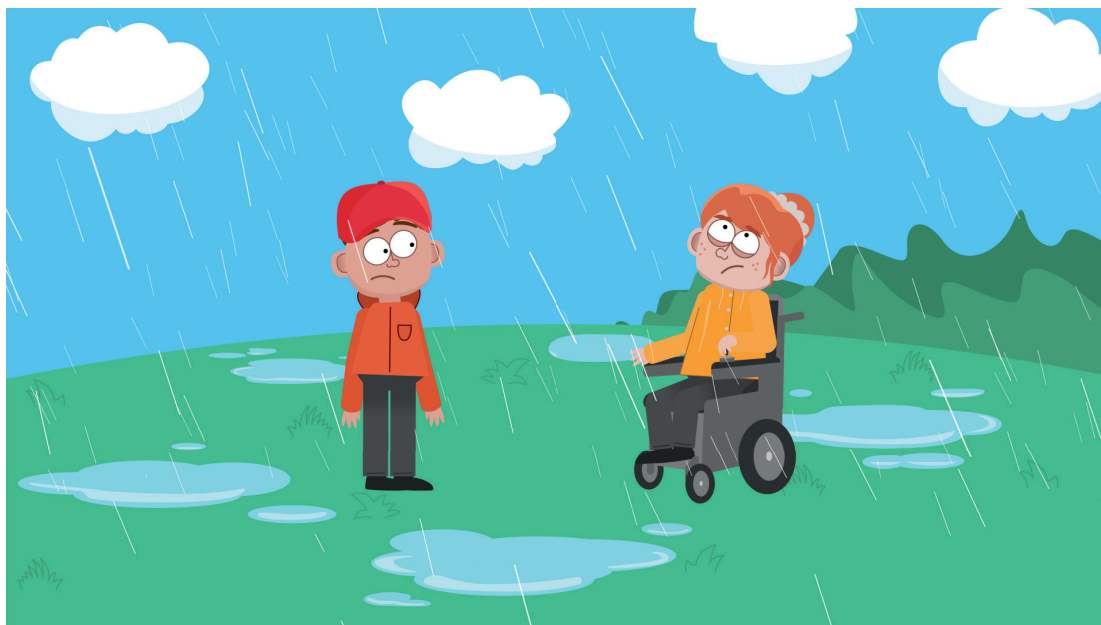

Watch out for a **hot** slide on the behind. Don't forget a hat and stay in the **shade**. Drink lots of water too.

Around tea time **clouds** will be rolling in, but it's staying **warm** and **dry**.

**Perfect weather for frisbees, balls, and awesome roundabout spinning.**

**I guess forecasting the weather, isn't such a breeze after all.**
