

A deer caught in christmas lights!

Rudolf loves Christmas, it is his favourite time of the year. He especially loves decorating the Christmas Tree. But, oh no, he has got himself in a right tangle! Don't forget to colour Rudolf in. What colour do you think his special nose should be?

The Christmas lights only work if all the bulbs are numbered in the right sequence. The green lights add 2 every time there is a new bulb. The yellow lights add 3.

Can you fill in the missing numbers and get the lights to work?

Colour in the missing lights when you have completed all the sequences.
