

Fantastic families

What a lovely day for a **fantastic** family picnic. But it looks like you're not the only family in the park.

Josh is here with his brother and sister as well as their dad. Olivia is here with her mum. You can really see the family **resemblance**.

And Hallie is here with her **affectionate** grandparents.

Sophie is here with her three older brothers and her younger **sister**. Tej has a new baby **brother** so his family has grown.

Aria's family has grown as well. She has a new **step sister**. And Jasper is here with his **auntie** and **uncle**. They live in a different household.

All the members of each family respect and care for each other. They support each other and help out when needed.

Wow! So many different, **diverse** families, both large and small. I sure hope we haven't forgotten anyone!

Of course! Our precious pets are always part of the **extended** family!
