

Make a world map jigsaw

Continents are big pieces of land with different countries in them. There are seven continents on Earth. They are called:

- Africa
- Europe
- North America
- Antarctica
- Oceania
- South America
- Asia

Do you know which continent you live in? Let's colour in the map to find each continent.

You will need:

- a printer

- some colouring pencils, felt tip pens or paints

- some safety scissors

Method:

1

Ask an adult to print out the colouring sheet.

2

Look at the key. Colour in the map by matching the correct colour to the correct number.

3

The blue shows you all the different oceans around the world. The other colours show you all the different continents. Can you see all seven?

4

Once you have coloured in the map, ask an adult to help you cut along the dotted lines to make your jigsaw pieces.

5

Mix up all the pieces and have fun trying to put them all back together again.

- Key:
- 1 = orange – Europe
 - 2 = red - Africa
 - 3 = yellow - North America
 - 4 = green - South America
 - 5 = purple - Oceania
 - 6 = grey - Antarctica
 - 7 = pink - Asia
 - 8 = blue – Oceans and seas
