

How to use scientific equipment

Scientific equipment

Investigations

How much does a rock weigh?

Does salt dissolve?

How fast does a toy car travel?

What do plant seeds look like close up?

What temperature is it in your bedroom?

How tall are flowers?

1. **Cut out** each piece of **scientific equipment** and each **investigation**.

2. Match one of the pieces of **scientific equipment** to the **investigation** you would need it for.

3. Are there some pieces where you can use more than one?
