

# Amazing animals

Animals are **amazing!**

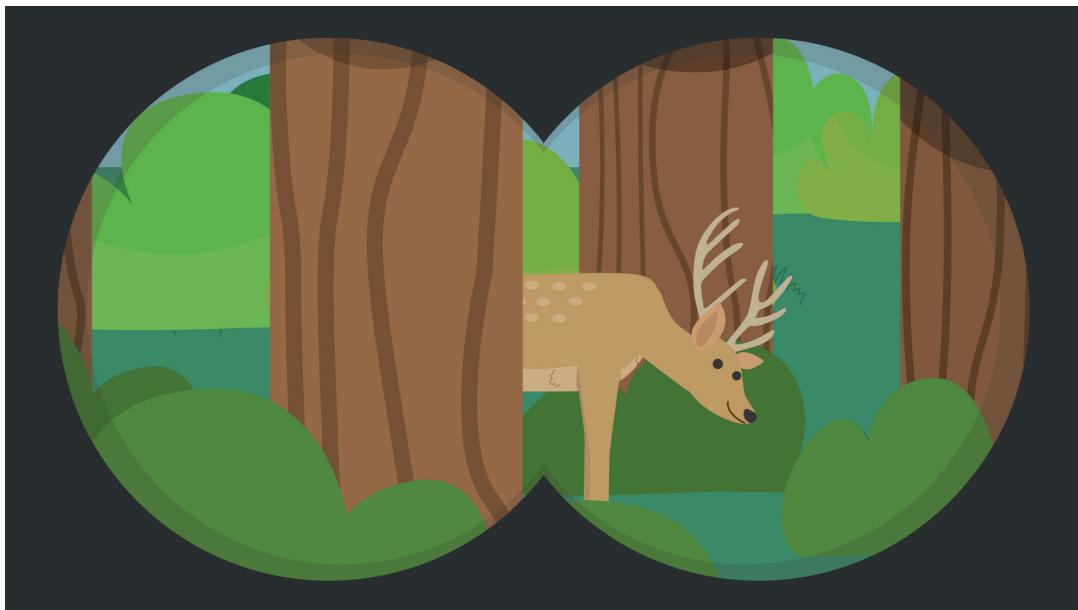

And in a **woodland** like this, they're everywhere. What can you find with your **binoculars**.

A **fluffy fox** with its big **bushy tail**.

That's a **mammal**, like that **nervous deer**. Shhhhh

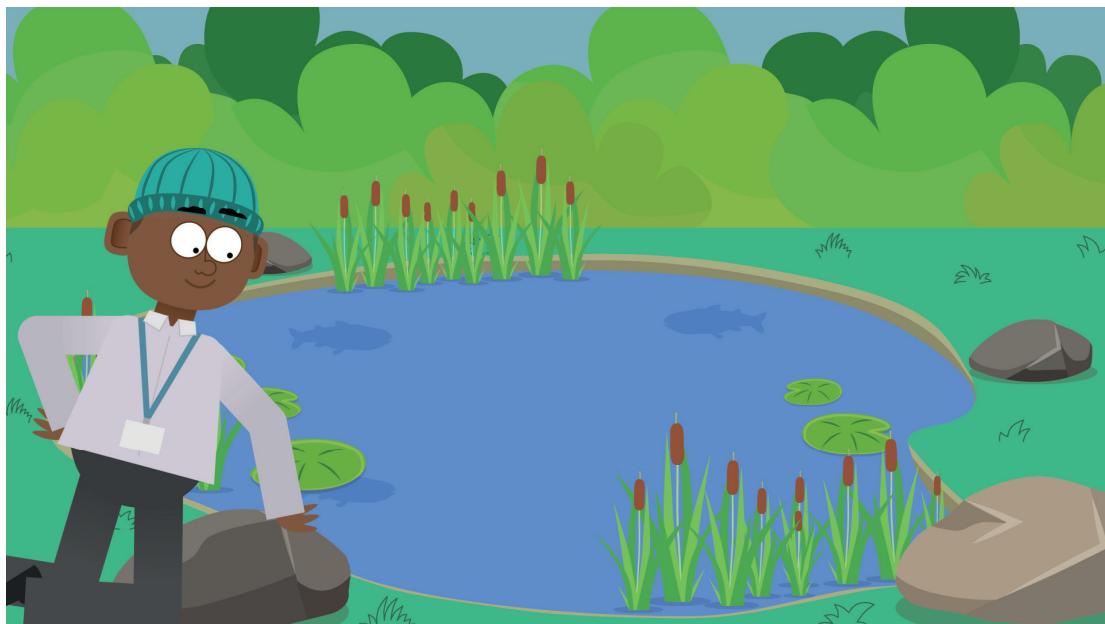

**Whoa! That cheeky magpie is a **bird**. With black and white feathers and a **beak**.**

**It's looking for **insects**. Like that beautiful buzzing bee.**

The natural **habitat** for **fish** is in water like that pond.

But they're not the only **amazing animals** to call it home.
